The 8" emblem being normally used as a back patch, and the 3" emblem as a shoulder patch or auto window sticker.

Section 2:

(1) A second emblem shall consist of an outline of the proportional dimensions of the State of Tennessee, having an overall dimension of 3 ½" X 1 ½", with the letters "TARS" 7/16" in height centered within the outline of the border, and the lettering to be green on a white background.

(2) This emblem shall be manufactured under the direction of The Association and supplied to active members at a nominal cost to be fixed by the Board of Directors.

(3) Any active member shall have the privilege of wearing this emblem on his/her uniform in accordance with recommendations made by the Board of Directors.

(4) The emblem of The Association (the TARS patch) shall be worn on the left side over the heart, ¼" above the pocket opening. To promote uniformity, it is further recommended that the American Red Cross Instructor's badge or the advanced Red Cross badge be worn on the right side ¼" above that pocket opening, or in this general location. The emblem of the respective member squad/unit should be worn on the left sleeve 2" below the shoulder seam, and

the emblem of the International Association, or other emblems, on the right sleeve ½" below the American Flag. Other emblems or awards should be worn on the right sleeve above the cuff or near the wrist.

(5) The American Flag was adopted as an insignia and is to be worn as part of the uniform of The Tennessee Association of Rescue Squads. This flag is to be located on the right shoulder 2" BELOW THE SEAM. The flag is to be properly oriented with the stars closest to the heart.

Section 3: Vehicle Rescue Patches

(1) There shall be two (2) authorized patches to be worn by persons satisfactorily completing the TARS Vehicle Rescue Classes. The basic patch will be worn by persons satisfactorily completing the class at squad level, and a patch to be worn by persons satisfactorily completing the Rescue College.

(2) The Basic Patch will consist of the 2 ¾ " X 2" TARS/EMS VEHICLE RESCUE patch with a rocker stating "TECHNICIAN" under it. It is suggested this patch be worn on the right shirt pocket, but can be worn on either shirt sleeve.

(3) The Rescue college patch, a 3 ½ " X 2 ¾ " shield with the words "TENNESSEE EXTRICATION TECHNICIAN" embossed on it shall be worn by graduates of the Rescue College. This patch should be worn on the right shirt pocket, but can be worn on either shirt sleeve.

ARTICLE IX GOVERNMENT

Section 1: Parliamentary procedure of The Association shall be "Robert's Rules of Order," revised edition, unless otherwise provided.

ARTICLE X AMENDMENTS

Section 1: Any member unit may propose an amendment to the By-Laws to the Board of Directors. The proposed amendment must be presented in resolution form to the Resolutions Committee. The Resolutions Committee will deliver a copy of the proposed resolution to all Unit Directors thirty (30) days prior to the next official Unit Director's meeting. Any amendment must be approved by a two-thirds majority vote of the Board of Directors present and voting, to become effective.

Section 2: Amendments shall become effective immediately upon approval by the Board of Directors and notification of each unit in The Association.

Section 3: Proposed amendments to the By-Laws may be voted upon and put into effect immediately if declared by two-thirds majority of the Board of Directors present and voting, to be an emergency.

ADDENDUM

CODE OF ETHICS

of the

TENNESSEE ASSOCIATION OF RESCUE SQUADS, INC.

Section 1: Emergencies within a county served by an organized Rescue Squad/Unit

The squad/unit serving that county shall be the FIRST and ONLY squad/unit called by any non-squad/unit or person, and the ONLY squad/unit responding to the emergency UNLESS the Governor of the State of Tennessee declares a State of Emergency or Disaster. In that event, this Section shall not apply, and The Association and all of its members shall follow the guidelines of the statewide mutual aid plan as outlined and described in T.C.A. Section 58-8-10 and related sections. If the Governor of the State of Tennessee has not made a declaration, then this Section shall apply, subject to the following modifications.

(1) Where one or more squad/unit headquarters in and serves a particular county, the squad/unit first receiving the call shall be considered as having jurisdiction of the scene of emergency until the call is successfully completed, or until that squad/unit relinquishes its prior jurisdiction due to conditions that may arise.

(2) In case of drowning, or other cases that may reasonably be expected to take an extended length of time, or a large number of personnel to complete, and where the victim of the emergency is a

resident of another county that has an organized associational squad/unit, and the squad/unit serving the “emergency scene” county receives the initial call, that squad/unit shall immediately call the squad/unit serving the victim’s home county and invite them to join the search. If the squad/unit serving the victim’s home county receives the initial call, they shall immediately call The Association squad/unit serving the “emergency scene” county, inform them of the circumstances, and ask that squad/unit to report to the scene and begin operations. The Association squad/unit serving the “emergency scene” county shall automatically expect the victim’s home county squad to answer the call, but when joint operations are to be carried on, the squad/unit serving the “emergency scene” county shall be expected to have jurisdiction over the overall operation.

(3) Where more than one organized squad/unit headquarters in and serves a single county, and the squad/unit initially called does not complete the call within twelve (12) hours, it is then recommended that the “first called” squad/unit call in any other squad/unit serving the county, but that the first-called squad/unit retain jurisdiction of the overall operation as long as that squad/unit continues active work on the call.

Section 2: Emergencies within a county that has no organized Squad/Unit

If the Governor of the State of Tennessee declares a State of Emergency or Disaster, then in that event this Section shall not apply and The Association and all of its members shall follow the guidelines of the statewide mutual aid plan as outlined and described in T.C.A. Section 58-8-10 and related sections. If the Governor of the State of Tennessee has not made a declaration, then this Section shall apply subject to the following modifications.

(1) If any victim of an emergency is a native of a county that has an organized squad/unit. Then that squad/unit shall be the first called and shall have jurisdiction over the scene so long as the squad/unit continues active work on the call.

(2) If any victim of an emergency is not a native of a county that has an organized squad/unit then the first squad / unit called and shall have jurisdiction over the scene so long as the squad/unit continues active work on the call, and may work the emergency alone or call in additional squads/units as they deem advisable.

Section 3: Association Action

(1) In the event of Association action in the area of Tennessee, the ranking State Officer shall be in complete charge of a Regional call-out in the event of the absence of officers of the squad/unit of the area involved.

(2) In the event of an out-of-state Association action, the President of The Association, or a person delegated by him, shall have charge of the operation.

Section 4: Joint Water-Recovery Procedures

(1) The boat recovering the body shall secure the body and allow it to remain submerged until:

(a) Other squad/unit boats searching in the area have converged on the scene.

(b) A stretcher and blanket are on the scene.

(c) A closed triangle, composed of three boats surrounds the body (one

boat) being the recovery boat, and one of the other two boats being a boat operated by the Host Squad/Unit.

(2) The body shall be loaded into the Host Squad's/Unit's boat and all except three boats, the Host Squad/Unit boat containing the body and two boats of the recovery squad/unit proceed to the shore, where the boats are docked and the landing area cleared.

(3) All squad/unit personnel on the shore shall form a double line from the water's edge to the ambulance (or an area to await the arrival of the ambulance) and await the arrival of the body, escorted by the two (2) remaining boats in the water.

(4) When the boat carrying the body is docked, the stretcher may be passed from hand to hand up the double line without a single man having to move his feet position, eliminating the possibility of slipping or stumbling on the part of the stretcher bearer.

(5) This section is based on the assumption that since it is an Associational effort there is no chance of survival of the victim and no first aid procedures are advisable.

(6) No member shall enter a boat or other water flotation device without a Coast Guard-approved life jacket on his person.

(7) No member shall stand up in a boat while in the process of dragging.

(8) No member shall allow a non-member to enter a unit member's boat unless that person is wearing a Coast Guard-approved life jacket.

Section 5: It is recommended that all State Officers of The Tennessee Association of Rescue Squads/Units wear a different color hat, jacket, or some other mark of identification to distinguish them from the regular members of the operation so that during a State or Regional operation, everyone will know who has the authority and responsibility for said operation.

Section 6: It is recommended that on all calls, Regional or State, that a person or persons be designated as Safety Officer. They are to work at water's edge or place of entry. This is to verify that all the personnel are properly protected if they are within 10' of the water's edge. This is for personal safety and to keep unauthorized persons away from the operation area.

Section 7: Miscellaneous

(1) Should any squad/unit receive a request in an emergency from any person, where it is known that another squad/unit rightfully has jurisdiction, then that squad/unit shall immediately call the "jurisdiction" squad/unit and acquaint them with the circumstances so that they may respond to the emergency and make the final decision as to whether additional help is needed.

(2) Any organized squad/unit that invites another squad(s)/unit(s) into an "emergency scene" over which they have jurisdiction, shall be the "Host Squad"/"Host Unit", exercising overall control of the operation and providing all physical comforts practical, including food to the assisting squads.

(3) No "Host Squad" / "Host Unit" shall direct and no assisting squad/unit shall be expected to obey directions that will, in their respective opinions, jeopardize the life of any squad/unit member.

(4) It is recommended that when several squads/units join in water body recovery efforts, that each squad/unit endeavor to furnish a minimum of six (6) men per boat launched, in order that all boats can continue searching and always have relief crews available without calling upon members of other squad/units for relief, thereby upsetting their rotation schedule.

(5) No squad/unit shall volunteer its services to another squad/unit, nor shall a squad/unit volunteer its services to the Sherriff of a county in which another squad/unit is operating (it being understood that any unit member of The Association is always ready to respond to the needs of any other squad/unit upon direct request.

6) It is recommended that when any squad/unit requests assistance from another squad/unit in any emergency, that a text, e-mail, cell phone, or public telephone may be used for the initial contact. A personal conversation is recommended for needed details of the mission, including manpower and equipment needed, and to confirm that the source of the call is legitimate.
